## To install the Video Screen Saver on your computer:

Windows 95/98/ME;

Drag or extract the VideoScreenSaver.scr file from the zip directory to **C:\WINDOWS\SYSTEM**

Windows XP/NT/2000;

Drag or extract the VideoScreenSaver.scr file from the zip directory to **C:\WINNT\SYSTEM32**

Windows Vista/7/8/8.1/10;

Drag or extract the VideoScreenSaver.scr file from the zip directory to any directory on your hard drive.

Menu (right) click on the VideoScreenSaver.scr file, then **click on Install**.

## To select the Video Screen Saver from the installed screen savers on your computer:

Windows 95/98/ME/XP/NT/2000;

Menu (right) click in the Windows Desktop background, , then click on Properties.

In Properties, select the "Screen Saver" tab.

Windows Vista/7/8/8.1/10;

Menu (right) click on the desktop, then click on Personalize.

At the bottom right of the Personalize window, click on the Screensaver link.

## To change the Screen Saver settings:

Select **VideoScreenSaver** then click on the **Settings...** button.

You can select the video or audio file here.

The file volume.

The time display format and text message.

## Video file types;

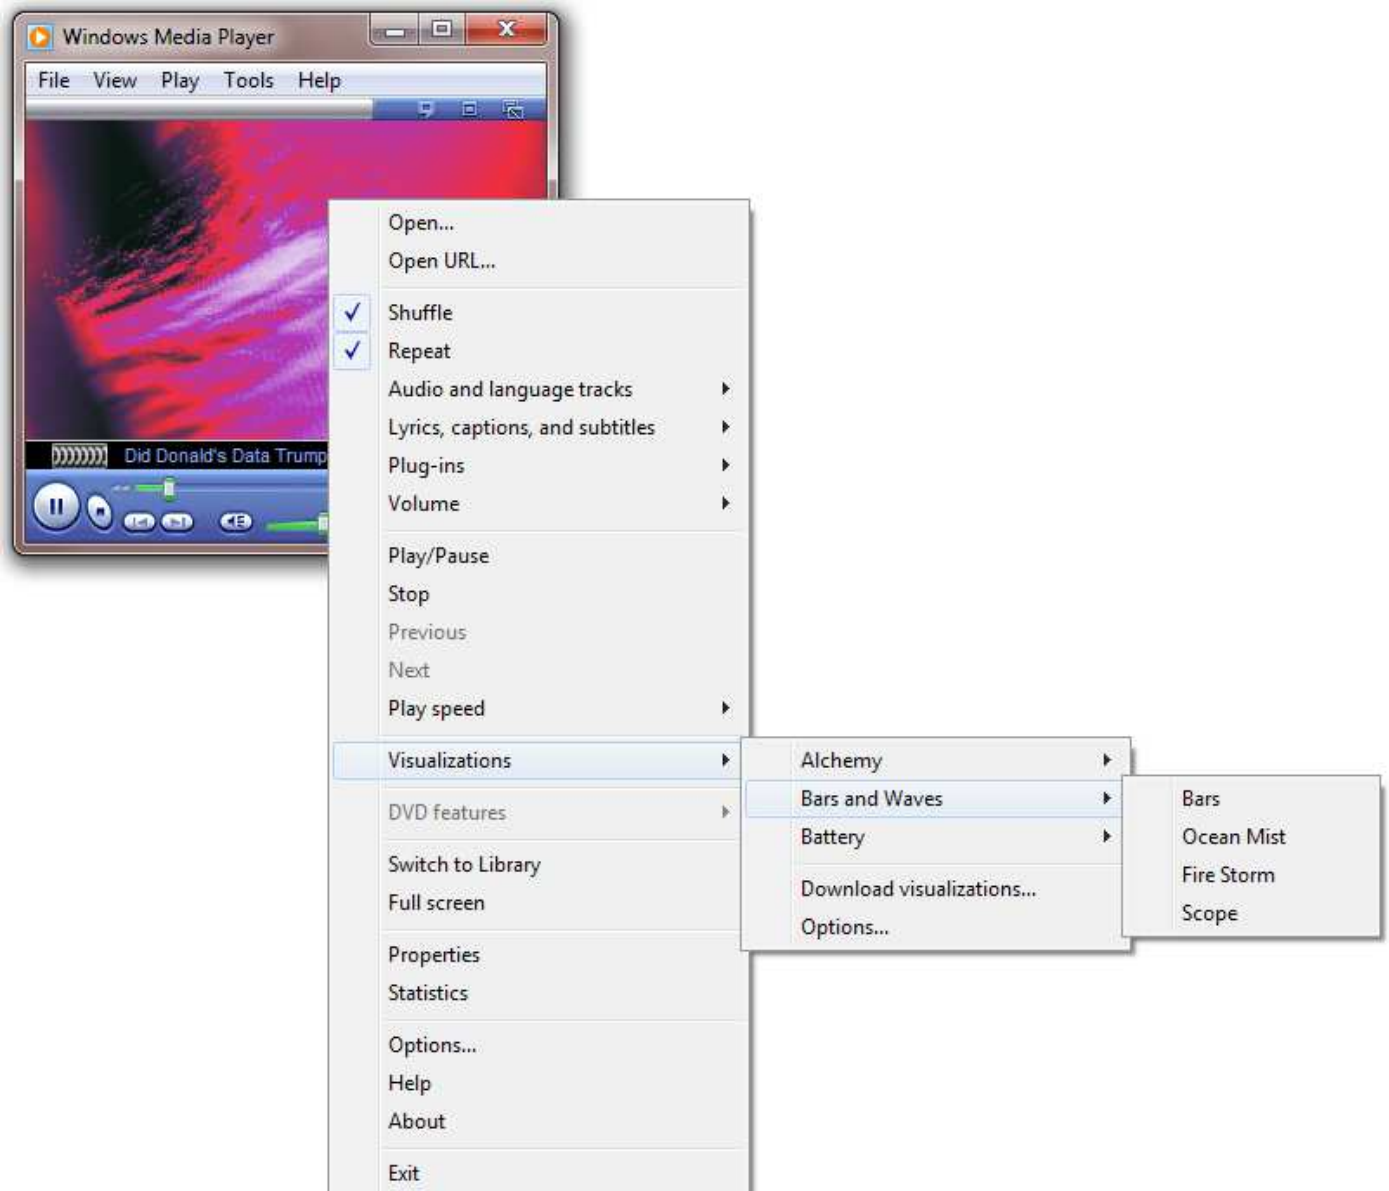

.mpeg, .mpg, .m1v, .mp2, .mpa, mpe, .ifo, .vob, mp4, .avi, .wmv.

## Audio file types;

.wav, .wma, .midi, .mid, .mp3, aiff, .aif, .cda.

Note: If you select an audio file, then the screen will display the pattern as set with **Windows Media Player**.

- 1; Load any audio file in to Windows Media Player.
- 2; Click menu over the main part of the window, where the pattern will be displayed.
- 3; Move the mouse pointer in to Visualizations, then Bars and Waver or Battery etc.

If you have more than one monitor attached to your computer then:

The video will only be displayed in the main screen.

Other screens will display an image from the science fiction program Red Dwarf.
